Future Prospects

Industry:

It is expected that local demand of cement may increase due to expected government spending on infrastructure projects. Proper and efficient utilization of allocated development budget would help cement sector to grow. However increase in electricity tariff and uninterrupted power supply will be critical for the industry.

Company:

Energy efficiency, labour efficiency & productivity and right financial modeling, smooth plant operations are key factors to success of any cement plant. The management is committed for a balanced delivery of long term values to all stake holders including financers, creditors, employees and shareholders.

During the period, the management has arranged a loan from an investor for the necessary maintenance of the plant. However, the terms and conditions of such loan have not yet been finalized. Due to this fund injection, operations of the company have been resumed in December 2013.

Acknowledgement

The board of directors are thankful to all stakeholders including but not limited to bankers, employees, suppliers, distributors as well as regulators and shareholders for their continued support, cooperation and trust especially in crises tenure faced by the company in the period under review.

MUHAMMAD IMRAN IQBAL Director

Notes to the Condensed Interim Financial Information (Un-Audited)

For the Period ended March 31, 2014

1 THE COMPANY AND ITS OPERATIONS

- 1.1 The Company is a public limited Company incorporated in Pakistan and is listed on Karachi and Lahore Stock Exchanges. The Company started its production on March 01, 1983 and has been engaged in production and marketing of cement. The company is a subsidiary of Three Stars Cement (Pvt) Ltd. The registered office of the company is situated at 30- Sher Shah Block, New Garden Town Lahore.
- 1.2 The company has accumulated loss of Rs. 4,221 million and its current liabilities exceed its current assets by Rs. 2,991 million as at March 31, 2014. Due to non availability of financial support from any source, the company was unable to manage the working capital requirement resulting the temporary closure of the mill operation in October 2012. However, to resume the operations of the company, the management has arranged a loan from an investor for the necessary maintenance of the plant and operations of the company were resumed in December 2013. Further, The Bank of Punjab has also rescheduled/restructured its loans subsequent to condensed interim balance sheet date. This would also be helpful to the company to come out from the financial crunch. On the basis of these facts the management of the company is fully confident that the company will continue its operations as going concern and they are fully committed to promote the company's objectives in the long run.

2 STATEMENT OF COMPLIANCE

These condensed interim financial information have been prepared in accordance with International Financial Reporting Standard 'IAS-34 - Interim Financial Reporting and provisions of and directives issued under the companies ordinance, 1984. In case where the requirement differ, the provisions of or directives issued under the companies ordinance, 1984 have been followed.

These condensed interim financial information should be read in conjunction with the annual audited financial statements for the year ended June 30, 2013. These condensed interim financial information are being submitted to the shareholders as required by Section 245 of the companies ordinance, 1984 and the listing regulations of Karachi and Lahore Stock Exchanges.

3 STATEMENT OF CONSISTENCY IN ACCOUNTING POLICIES

The accounting policies and methods of computation adopted for the preparation of these condensed interim financial information are the same as those adopted in preparation of financial statements for the year ended June 30, 2013, except as follow:

IAS 19 (as revised in June 2011) "Employees Benefits" became effective during the period. The amendments to IAS 19 change accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligation and plan assets. The amendments require the recognition of changes in defined benefit obligation and fair value of plan assets when they occur, and hence eliminate 'corridor approach' permitted under the previous version of IAS 19 and accelerate the recognition of past service costs. Now, all

actuarial gains and losses are recognized immediately through other comprehensive income. Further more, the interest cost and expected return on plan assets used in previous version of IAS 19 are replaced with a "net-interest" amount under IAS 19 (as revised in June 2011), which is calculated by applying the discount rate to the net defined benefit liability or asset. IAS 19 (as revised in June 2011) introduces certain changes in the presentation of the defined cost including more extensive disclosure.

The Company has applied IAS 19 (as revised in June 2011) retrospectively in accordance with requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". Accordingly, opening balance sheet of the earliest comparative period presented (01 July 2012) has been restated. This change has resulted in decrease in the balance of due to gratuity fund trust by amounts mentioned below with corresponding effect on equity. The effect on the condensed interim statement of comprehensive income for the six months period ended 31 December 2013 has not been disclosed separately since the actuarial valuation is carried out on annual basis. However, there is no impact of this change in accounting policy on condensed interim profit and loss account and condensed interim cash flow statement.
